Professional Summary

Full Stack Developer with 6+ years of experience in building and leading development of scalable web and mobile applications, APIs, and cloud-based solutions. Skilled in Java, PHP, Python, and cloud architecture. Proven expertise in leading cross-functional teams, Agile development, and delivering end-to-end solutions for EV, IoT, and CMS platforms that improve efficiency and reduce costs.

Skills

- **Languages:** C++, SQL, PHP, Java, Python, Embedded C
- **Frontend:** HTML, CSS, JavaScript, Android Development, Qt
- **Backend:** RESTful APIs, MySQL, Database Design, XML, Microservices
- **Cloud & DevOps:** AWS, Cloud Server Deployment, Dedicated Servers, Git
- **Embedded & Protocols:** OCPP, MODBUS, MQTT, I2C, SPI, CAN, Raspberry Pi, Microcontrollers
- **Tools:** Android Studio, Keil, Proteus, MPLab, Slack, VSCode, Qt Creator

Work Experience

Senior Full-Stack Developer & Team Lead *Tuckermotors Pvt Ltd, Madurai* | Feb 2020 - May 2024

- Led a team of 25 Engineers in end-to-end development of a scalable EV charging CMS and Android app, serving 100+ stations with 1000+ userbase, which became the core product generating ₹1 lakh/month.
- Implemented OCPP 1.61 protocol, achieving 99.9% reliable communication between 100+ hardware stations and the central server, reducing system downtime by 80%.
- Integrated Razorpay and PayTM gateways, automating the payment process and processing over ₹5 lakh in transactions within the first year.
- Managed the full software lifecycle using Agile, reducing time-to-market for new features by 20% through improved coordination between embedded and software teams.

Embedded & Full-Stack Engineer *Firstcall Automation Pvt Ltd, Madurai* | Jul 2018 - Feb 2020

- Developed and optimized embedded software for industrial SCADA and home automation systems using C, Python, and IoT protocols (WiFi, BLE, Zigbee).
- Reduced company expenditure on third-party SCADA tools by over 40% by designing and developing in-house data acquisition software.
- Built full-stack web applications for real-time energy monitoring, improving data visibility for clients and reducing manual reporting time by 5 hours per week.

Education & Certification

- **Java & SDLC Fundamentals** *Great Learning* | Sep 2024 - Oct 2024
- **B.E. ECE (7.45/10 GPA)** *PA.College of Engineering, Pollachi* | Jun 2014 - May 2018
- **Infosys Campus Connect(WebDevelopment,DBMS)** *Infosys Limited* | Jul 2017 - Oct 2017
- **Python(Linux)** *PA.College of Engineering, Pollachi* | Feb 2017 - Mar 2017
- **Embedded Systems(PIC,Atmel)** *PA.College of Engineering, Pollachi* | Aug 2016 - Sep 2016

Achievements

- **Best Engineer Award (2024)** - Recognized for 5 years of exceptional contribution and leadership.
- Published Research Paper: "[Vehicle Control System Implementation using CAN Protocol](#)" in the International Journal of Engineering Research & Technology (IJERT), April 2018.
